Business Analyst Health

We are looking for a full-time colleague who (minimally) has a master's degree on a university level and affinity with health and life sciences. You will team up with a consultant managing multiple projects, from account management and client relations to educational projects which involves taking a deep-dive into various healthcare topics e.g. cardiovascular disease or oncology. Together you will work on all aspects of a project, ranging from client contact to marketing to small administrative tasks.

We are looking for someone with

1. A master's degree in the field of health & life sciences;
2. Interest/affinity and preferably experience in:
 - a. Value-Based Health Care;
 - b. Educational (in-house) programs;
 - c. Business (a highly developed sense of commercialism and experience in marketing/communication);
 - d. (Project) Management (planning skills, able to prioritize and work within deadlines, keeping an overview in hectic surroundings);
 - e. Client relations and adding value for them;
 - f. Willingness to work internationally;
 - g. Consulting and change management experience or proven interest;
3. The following competencies:
 - a. Positive and enthusiastic;
 - b. Thorough;
 - c. Hands-on mentality;
 - d. Entrepreneurial and independent;
4. Fluency in both Dutch and English;
5. Excellent skills in MS Office.

What we offer

1. Fast-learning by doing;
2. Informal but professional and challenging surroundings;
3. Critical feedback loops to get the most out of you;
4. Working closely together in a team with great colleagues;
5. Freedom and responsibility; 'head-first', initiative and creativity;
6. All can build the company, you are important!
